## **Professional Profile**

[www.youtube.com/watch?v=XyizF0s0GvQ](https://www.youtube.com/watch?v=XyizF0s0GvQ)

## **Expertise**

25 years' experience as an international development advisor (World Bank, USAid, EU, UNDP), SOAS and Oxford University Professor, researcher in macroeconomic and human-centred aspects of development in South Asia and Africa. In particular the academic and policy literatures and debates related to economic growth, industrialisation, the role of the state and industrial policy, investment, the digital economy, big infrastructure (roads, railways), special economic zones (SEZs), the economics of urbanisation, local content and localisation of the value chain, mineral-based economies, and the resource curse.

I am an acknowledged expert on the form, functioning, and evaluation of Special Economic Zones (SEZs) in East Africa and beyond. I have written a series of [twelve policy briefs](#) on the reform of SEZs in East Africa. These policy briefs are part of a policy dialogue with regional governments and have been presented and discussed at a series of dissemination workshops in collaboration with a local think tank the [Zanzibar Research Centre for Socio-Economic and Policy Analysis](#) (ZRCP) and presented to government, donor and other stakeholders.

I am closely familiar with the academic and policy literature on urban economics, including agglomeration, density, the pathology of urbanisation without industrialisation structural change, the influence of infrastructure on patterns of urbanization, planning laws, and urban governance. Under the umbrella of urban economics, I have published research papers on [roads in Zambia](#), [railways in Africa](#), [planning laws in Africa](#), [canals and urbanisation](#), and the economics of skyscraper construction in Africa (forthcoming).

I currently leading research projects looking at the role of local manufacturing content in Ethiopia, Mauritius, Tanzania, and Zambia. Look at i) the constraints on scaling up production small-volume high-end manufacturing, the blue economy, and tourism, ii) the potential for localizing the timber-value chain for housing construction in Tanzania, iii) a comparative study of industrialisation in Ethiopia and Zambia 2000-2020, and iv) the potential impact of supermarkets in driving localisation of agro-processing and manufacturing. These research projects are being done in collaboration with a network of scholars from Universities and think tanks in Africa, including the [Zambia Institute of Policy Analysis and Research](#) (ZIPAR), The State University of Zanzibar, (SUZA), Dar Es Salaam University, Ardhi University (Tanzania), and Makerere University (Uganda).

I have conducted extensive research on the global economic impact of China. I have focused on the economic impact of the energy and transport infrastructure projects being created by

the Chinese Belt and Road Initiative (BRI) or New Silk Road, in particular in Pakistan, Ethiopia, Tanzania, and Zambia. I have examined the impact on industrialisation, employment, regional inequality, migration, state capacity, economic growth, investment, and trade. The research has been presented to policymakers, civil servants and academics in the UK, China, Japan, Zambia, India and Pakistan and resulted in three peer-review journal papers and a monograph '[The Dragon from the Mountains: The CPEC from Kashgar to Gwadar](#)', published by Cambridge University Press monograph.

I have worked on GCE modelling consultancy projects in Jordan, Saudi Arabia, Egypt, and Bangladesh. This has included; a three-month project with the World Bank to model and analyse the impact of COVID19 on socio-economic development in Jordan, including forecasts, modelling different (trade and pandemic) shocks, and policy options for the Government of Jordan; and a one-year project with the World Bank in Saudi Arabia, to build a CGE model to model the impact of digital economy policy adoption on economic outcomes, to train officials in the Ministry of Communication and Information Technology on the usage and updating of the CGE model, and to write a final policy report detailing the impact of various digital economy policies on economic outcomes in KSA.

I have extensive experience in university level teaching, at undergraduate, graduate, and post-graduate levels, in every aspect, from convening, to delivering lectures, to examinations, MSc/MPhil/PhD supervising, and PhD vivas. I have conducted civil service capacity building (often as part of a CGE mission) in areas related to general and partial equilibrium, urban policy, and tax policy, in Zambia, Saudi Arabia, Pakistan, Egypt, and Bosnia and Herzegovina.

## **Education**

2000 (October) - 2002 (full-time), 2002 – 2005 (September) (part-time), **SOAS, University of London**,

**PhD Economics.**

'The Role of the State and Episodes of Growth and Stagnation in India, 1951 – 2004'.

1996 (October) – 1998 (September), Keble College, **Oxford University**.

**MPhil Economics.**

Dissertation 'The Stagnation of the Indian Industrial Economy, 1965-1980'.

1993 (October) – 1996 (June), King's College, **Cambridge University**.

**BA (Hons) Economics.**

Double-first.

## **Employment History**

**July 2024 – Head of Research, Africa Urban Lab (AUL), African School of Economics (ASE), Zanzibar [www.aul.city](http://www.aul.city)**

Newly established campus of the African School of Economics (ASE).

**September 2021-July 2024 – Senior Researcher, Charter Cities Institute, Washington, D.C**

Development think tank focusing on issues of industrialisation, urbanisation, poverty, employment and infrastructure.

**Associate Professor in the Political Economy and Human Development of South Asia,** September 2011-2021, Oxford School of Global and Area Studies (OSGA), University of Oxford

**Governing Body Fellow Wolfson College, 2011- 2021**

**Director of the Contemporary South Asian Studies Programme (CSASP), 2011-2018**

**Research Director 2016-2018, OSGA, University of Oxford**

### **Other Posts**

**Chief External Examiner** 2019-2022, Faculty of Law and Social Sciences, School of Oriental and African Studies (SOAS), University of London

**External Examiner** 2018-2021 for the School of Oriental and African Studies (SOAS), University of London, Department of Economics Diploma and Undergraduate courses

**Member of the Academic Board** (2019-2022), Peking University HSBC Business School UK

### **Previous Posts**

**Lecturer in Economics (South Asia), 2002 – 2011, Department of Economics SOAS**

**Consultant to the executive committee Zambian Revenue Authority (ZRA), Lusaka, Zambia, 2000**

**ODI Fellow in the Budget Office Ministry of Finance, Lusaka, Zambia.**  
October 1996 to August 1998

### **Employment History (Short-term): Economics Consultancy**

**April 2021-2023** – consultant, World Bank mission in Saudi Arabia, first to build a CGE model to model the impact of digital economy policy adoption on economic outcomes, to train officials in the Ministry of Communication and Information Technology on the usage and updating of the CGE model, to write a final policy report detailing the impact of various digital economy policies on economic outcomes in KSA.

**April 2020-2021** – consultant, World Bank, the impact of Broadband Internet on Economic Growth and Social Development in Developing Countries. I worked in partnership with a CGE modeling specialist to first, review the existing academic literature analyzing the economic and social impact of Broadband Internet and second, to develop a generic CGE model to simulate the introduction of Broadband Internet.

**January to September 2020** – consultant, World Bank, **Jordan**, project to forecast and analyse the impact of the COVID19 crisis on the socio-economic development of Jordan. Using CGE modeling I worked with a small team to model the impact of COVID19 and associated government imposed lockdown on the economy of Jordan. The analysis included forecasts of the impact relative to the baseline (without COVID19) according to different scenarios of the magnitude of shocks to international trade, tourism arrivals and prevalence of the pandemic. We focused on both the social (income distribution, poverty, employment) and economic impacts (economic growth, investment, trade, FDI, tourism) of the crisis. The project drew on extensive involvement from and dissemination to the Government of Jordan and major donors (including USAID, DFID, and the IMF).

**November 2014** World Bank project to evaluate energy related projects in **Egypt**. Lecture Course on Microeconomics in Ministry of Petroleum, Cairo.

**2006-2007** EU Fiscal Policy Support to **Bosnia and Herzegovina**, Public Finance Specialist. Lecturing at the Ministries of Finance in Sarajevo and Banya Luka.

**July 2005** Tax Policy Training Ministry of Finance, Tbilisi, **Georgia** (SOFRECO, EU Funded). Series of ten lectures on tax policy theory and analysis to officials from the Ministry and a training manual.

**April 2004 to May 2004** Evaluation review for UNDP on Computable General Equilibrium Modelling in **Bangladesh**. I was the lead researcher in Bangladesh, organised local consultants, conducted interviews in the Ministry of Planning, BIDs, ADB, World Bank etc. Wrote the final (30,000 word) report.

**2003 - 2007** Various consultative reports for Oxford Analytica on aspects of the Pakistani and Indian economies.

**July 2001 to September 2001** Team leader for the trade section of ‘Regional Association to Promote Integration and Dialogue and Policy Implementation’ (RAPID), Gaborone, **Botswana**, USAid project to analyse regional integration, focusing variously on trade policy, customs, tariffs, the impact of AGOA etc. I led a team of about 8 researchers looking at incentives and comparative advantage in the SADC region. Also wrote a (10,000 word) theoretical review paper for the project (see reports).

**August 2000 to September 2000** Zambian Revenue Authority (ZRA), Lusaka, **Zambia**, consultant to the executive committee. Analysed the impact of budget changes on revenue from VAT. I presented the findings to the senior management, which were later used to re-negotiate lending conditionalities with the IMF

**October 1996 to August 1998** ODI Fellow in the Budget Office Ministry of Finance, Lusaka, **Zambia**. Participated in various budget task forces in preparing proposals for inclusion in the annual budgets, assisted in drafting. Large number of training manuals and position papers for general use in the Ministry. Inclusion of a number of my own proposals included in the budgets.

## **Employment History: Visiting Professor Positions**

Lublin, **Poland**, Hitotsubashi University, Tokyo, **Japan**, Lahore School of Economics, Lahore, **Pakistan** Azim Premji University, Bangalore, **India**, Warsaw University, **Poland**, lecture and PhD/ MSc supervisions with graduate students, University of Osaka, **Japan**, Pakistan Institute of Development Economics (PIDE), CERIS University, Brussels, **Belgium**, Korea University, Seoul, **South Korea**, Jawarharlal Nehru University (JNU).
